

Outlook on Advanced Technology

Average Positive View In States With The Most Manufacturing

The 16 states selected were chosen by two criteria:
 1.) Top ten largest absolute number of manufacturing jobs.
 2.) Top ten highest percentage of jobs in manufacturing.
 Four states are in the top ten for both lists

Michigan and Pennsylvania are tied for the lowest positive outlook at a mere 37%

California had the highest positive view at 47%

Of the 13 subjects, participants felt the most positive toward 5G, and the least positive toward drones

Participants were polled on 13 different types of tech: RPA, AI, ML, 3DP, Robots, Drones, Vehicles, IoT, Tracking, Cloud, Blockchain, VRAR, and 5G.
