

A Bird's Eye View

The 12 Countries with the Greatest Bird Species Density

A Cylindrical Equal Area (World) Projection by Kevin Pomeroy for Geography 370 Spring 2021 with data gathered from Esri Open Data Portal, Dragan, Avibase, Natural Earth, and Laymik

Interested in birdwatching but not the long distances between sightings? Then take your pick from these 12 countries with the greatest number of bird species per square mile! With the rise of ecotourism, counties otherwise left overlooked by vacationers and travelers alike are becoming more accessible and welcoming to those keen on seeing as many birds as possible!

Ranking	Country	Species	Square Mile	Ranking	Country	Species	Square Mile
1	São Tomé & Príncipe	163	386	7	The Gambia	607	4361
2	Trinidad & Tobago	487	1981	8	Samoa	97	1097
3	Brunei	497	2226	9	Jamaica	322	4244
4	Comoros	168	863	10	El Salvador	611	8124
5	Mauritius	139	788	11	Rwanada	713	10169
6	Cabo Verde	266	1557	12	Equatorial Guinea	852	110831
