

Milwaukee is a patchwork of diverse and evolving cultural landscapes, each reflecting a unique aspect of the city's character. This map represents downtown Milwaukee neighborhoods in a non-contiguous arrangement, with colors reflecting what each is known for, and the ways they are commonly perceived.

By using the legend to the left explaining the map's color palette, and the neighborhood key to the right which lists neighborhoods left to right and top to bottom, viewers can find new ways to understand the built and lived environments of Milwaukee and the patterns that emerge across the city.
